

Method 12-a

Cape, Central African, and Nile Buffaloes

	Left	Right
W	/8	/8
G	/8	
Score (W & G)	/8	
E-tip to tip	/8	

Cape buffalo

Central African buffalo

Nile buffalo

Score: Add the sums of the 2 bosses (**W**) and the greatest spread (**G**), this is the score.

To Be Filled Out by Measurer: (All fields **MUST** be filled in for entry to be acceptable.) (Please print!)

Outfitter / Guide _____ Date Measured ____/____/____
(year/month/day)

Measurer's Information:

Name _____ Signature _____

Trophy Information: Country _____ Date Collected ____/____/____
(year/month/day)

Area/Nearest town _____ Game proof fence*: Yes No

Rifle/Shotgun | Muzzleloader | Handgun | Bow/Crossbow | Picked up | Acquired | If enclosed, _____ Acres Hectares

Owner's/Hunter's Information: (For different shipping address, see other side)

*See Measuring Handbook for definition.

Credit Card: Visa MC AMX

Credit Card Number _____ Expires ____/____ CVV ____ (on back of card)

I certify that I hunted or acquired this trophy in an ethical, lawful, fair-chase manner, and according to Rowland Ward's Guiding Principles and that Rowland Ward can use my photos for publication.

Signature _____ Date _____ (Official Use Only ____/____/____)

Method 12-a Cape, Central African, and Nile Buffaloes

Width of boss: Using a tape, measure the boss of each horn at its greatest width. **(W)** The angle for this measurement must be parallel to the centerline of the skull. (Figure 1) DO NOT measure “green” or “soft” boss material. Start tape at back of boss, hook it under the horn lip, then curve the tape over the boss, at its widest point, to the front, do not press tape down, span over any depressions. Depending on the horn configuration it can be possible to roll the tape under the horn at the front; do not do so. As soon as the horn starts curving inward, stop the width measurement. (Figure 2) Boss measurements may not be taken outside the outer edge of the eye sockets as it would lead to a circumference measurement. (Figure 1) Remember to measure exactly parallel to the center line of the skull and NOT at a 90-degree angle to the axis of the horn. **A boss that has been enhanced by taxidermist materials disqualifies the head for Rowland Ward and cannot be measured/entered.**

Greatest Spread: Establish outer limits of horns using two right-angle forms. Measure the spread in a straight line and at a 90-degree angle to axis of skull. **(G)**

Score: Add the sums of the 2 bosses **(W)** and the greatest spread **(G)**.

Tip to Tip: Measure the Tip to Tip spread from the center of one horn tip to the other. **(E)**
REQUIRED

Cape Buffalo. Cross-section of horn & skull, side view. Boss measurement start and stop.

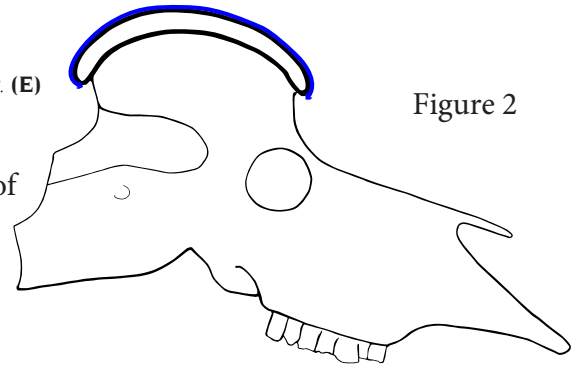

Figure 2

Comments (Note trophy repairs, remeasuring, and so on, here):
